6 HOURS

AMAZINGLY FAST TURNAROUND

Print then laminate in as little as 6 hours*. With the TrueVIS VG2 you can print, laminate and apply the same day, with the reassurance of quality output and reliable installation.

NEW TRUEVIS ECO-SOLVENT INK

GREENGUARD Gold certified TR2 ink supports 2 x CMYK and 7-colour + White, plus an 8-colour Orange or Green configuration, to increase the breadth of colour gamut and add real impact and high visibility to graphics.

True Rich Color

TRUE RICH COLOR INVENTED HERE

Vibrant colour can be combined with neutral greys, smooth gradations and natural skin tones to create stunning graphics. Don't compromise on colour accuracy or vibrancy – True Rich Color 2 gives you the best of both.

UNSURPASSED PRINT AND CUT PERFORMANCE

Technological advancements, such as newly designed middle pinch rollers, new crop mark options and FlexFire printheads, improve both print and cut accuracy for reliable results and unattended operation.

¹The media holders of this machine are designed to be used exclusively with media that has a paper tube (core) with an inner diameter of 76.2 mm. To use 50.8 mm media, the optional media flanges are required.

²The length of printing is subject to the limitations of the program.

³500 gf is the maximum instantaneous blade force. The blade force must be adjusted according to details such as the media thickness.

⁴Media type: Media specified by Roland DG Corporation. Temperature: 25°C (77°F), humidity: 50%RH. Roll media must be loaded correctly. Applicable when all pinch rollers that can be used with the media width are used. Side margins: 25 mm (1.0 in.) or more for both the left and right margins. Excluding expansion/contraction of the media. Not assured when the print heater or dryer is used. Assumes all correction and adjustment functions of the machine have been used properly. Print travel: 1m.

⁵Warm-up is required after power up. This may require 5 to 20 minutes, depending on the operating environment. Depending on the ambient temperature and media width, the set temperature may not be reached.
