Rapid Call-out Response to Fix Your Machine

With no need for additional quotes or third-parties, our technicians will respond quickly so that your device is up and running as fast as possible.

Predictable Costs

Comprehensive coverage so you know exactly the cost of the service and your business is completely covered without extra cost.

Without Roland DG Care

Labour Hours Not Included

Increased risk by not having control over who is repairing your equipment, no one knows a Roland device like we do.

Roland DG Connect PRO Not Included

Pay an additional **€12.16/month** if you want to benefit from all of the advanced features of Roland DG Connect PRO.

Slower Response Times

A quotation is needed each time your device needs to be repaired. This may slow down the repair and lead to additional downtime.

Unforeseen Costs

Even a single day's downtime can have a serious immediate impact on profits and a long-term impact on the reputation of the business.

Rest easy knowing your equipment and business are protected.
